## Diploma in Aircraft Maintenance Engineering

The affordability of air travel has led to a significant growth in the air carrier industry thus creating a huge demand for aircraft maintenance staff. Suitably qualified personnel especially those allowed to certify aircraft airworthiness command high salaries and are highly sought-after. You can now be part of this exciting industry – enrol in Nilai UC's Diploma in Aircraft Maintenance Engineering today.

This diploma gives you the edge because:

- **It is your passport to certifying aircraft worthiness as the diploma incorporates the European Aviation Safety Agency\* (EASA) syllabus, preparing you for the EASA Part 66 Category B1-1 examinations.**  
\*The European Aviation Safety Agency is the centrepiece of the European Union's strategy for aviation safety. Its mission is to promote the highest common standards of safety and environmental protection in civil aviation ([www.easa.eu.int](http://www.easa.eu.int)).
- **You sit for the EASA examinations at the same time whilst you pursue your diploma course. Thus Nilai UC's programme offers you double the qualification at no extra work.**
- **Nilai UC is a validated EASA examination second site. This means you will no longer need to incur the expense of travelling to Europe to sit for this exams as you can do it right here at Nilai UC.**
- **Your instructional training and industrial attachment are guaranteed with our partners.**
- **Nilai UC has innovatively packaged the diploma and the EASA examination, which means you enjoy substantial cost savings.**
- **You will enjoy a wholesome and balanced learning experience at Nilai UC's award-winning campus with friends from over 50 countries.**
